#### Auto-extension

An auto-extend on a lot is designed to stop 'sniping'. This is where someone swoops in at the last second and buys the lot. Auto-extension gives all bidders time to place another bid and therefore makes the closing of a lot as fair as possible.

The extension on this auction is set to 5 mins.

If you bid in the last 5 mins of the auction, the lot will extend by 5 mins.

Therefore, if you bid with 3mins 30secs to go, the timer on that lot will extend to 8mins 30 secs.

Please note: This does mean that the lots may not close in the order shown in the catalogue. The closing times are dependent on how much bidding activity there is.
